EXPERIENCE

Frontend developer - Intern

Glaucus Engineering

📅 Nov 2020 – Mar 2021

📍 Kraków, Poland

Joined a small team of developers who introduced me to Vue and Ionic. I worked in some ongoing projects with different technology stacks and clients.

- Vue 3
- Vuex
- Laravel
- Sass

Android developer - Intern

ITSector

📅 Feb 2020 – Jul 2020

📍 Aveiro, Portugal

Completed an internship focused on android applications development. Got introduced to real work environment and learned how to use tools to manage a project's development.

- Azure DevOps Server(TFS)
- Java
- Project planning
- Design patterns

PROJECTS

Event managment app

ITSector

📅 Apr 2020 – Jul 2020

📍 CETAV - ITSector

A robust android application developed for ITSector workers to create and organise events, such as meetings and workshops.

- Android Jetpack
- Dedicated API
- Google authentication

Air Quality Web app

Personal project

📅 Ongoing

Air Quality is a web app that gives users information about the air quality in any locations, as well as recommendations and forecasts in a detailed page.

- Vue 3
- REST API

EDUCATION

Computer Science and Engineering

Instituto Politécnico de Bragança

📅 Sep 2016 – Jul 2020

Erasmus+

Politechnika Krakowska im. Tadeusza Kościuszki

📅 Oct 2018 – Jun 2019

STRENGTHS

Java Android SDK REST
React Vue Ionic JavaScript HTML
C# .NET Git

Teamwork Adaptability
Desire to learn Communication
